will stop anywhere else. DAN O'KEEFE,

Proprietor.

An Episode of Nebraska Life.

I met a gentleman at the Union depot the other night who had just returned from Kearney county. He said: "I took up a claim three weeks ago and built my shanty with more care than is usually taken with them. I built a bedstead of boards in the corner and laid in a stock of canned goods and dried meat. The first night after it was completed I crawled into bed and fell into a deep sleep. About midnight I was awakened by a half dozen rude jolts, some one cracked a whip, yelled 'Git up' and I straightway felt the motion of a heavy wagon. I was but half awake, but I realized that my bed was tipped to an angle of 45 degs. and that everything was moving. I realized that my shanty, supposed to be unoccupied, was being stolen with me in it. I grasped my revolver and emptied it at the walls and in answer heard the sound of scattering feet. I crawled out of the small window and drove back about 100 yards to the side of the house, where I made the horses fast and posted myself under the wagon. The next day I drove two miles to my nearest neighbor and soon had his opinion and that of several other farmers. They all said the horses and wagon were mine beyond doubt, as no one would ever claim them."—Kansas City Times.

Going Home to a Wife He Has Never Seen.

Wong Sie Kie came from Hong-Kong to America three years ago. He turned not at San Francisco or New York, but selected Hartford as his abiding place. Immediately he began washing clothes, and his attention to business and his good natured "Hello" to all visitors brought him many customers. He prospered so well that he thinks he has now made enough to justify his return to China. Wong will leave Hartford for San Francisco, from which port he will take immediate passage for his beloved Hong-Kong. He has sold out his business to a cousin, who has taken charge. His savings and the money he got for his laundry amount to \$2,000, representing his net profit after his living expenses have been deducted from three years of laundrying. Wong says his father and mother are living, and that he has brothers and sisters. Besides, he has a wife in China, to whom he has been married since he came to America. His imperfect English prevented a lucid explanation of how this marriage occurred. —Hartford Courant.

A Successor of Newton.

Sir George Gabriel Stokes, who is still he retires senior member for Cambridge university, is one of the most distinguished mathematicians of the day. He is an old man in the "seventies," below the medium height, with snow white hair and a very high forehead. Sir George is president of the Royal society, an office which was held by the famous Sir Isaac Newton, who was also member for the University of Cambridge. These two positions, which have never been held by one individual since the time of Newton, are now, after the lapse of upward of two centuries, happily combined in Sir George.

To carry the analogy further, Newton never once spoke in parliament, while Sir George, although an assiduous sifter out of debates, has during his five years of parliamentary life addressed the house on two or three occasions only. It is not generally known that Sir George Stokes is an Irishman. His father, a distinguished graduate of Trinity college, was rector of Screeen, about seven miles from the town of Sligo.—London Star.

How Maine Firemen Managed.

The firemen of Caribou, Me., were called upon to perform a feat rather out of the usual line of duty. The bridge across the Aroostook river connecting the two sections of the village burned, and although the adjacent buildings in the main village were saved those on the opposite side of the river, near the end of the bridge, took fire and were threatened with destruction. All of the fire apparatus was in the main village, the bridge was destroyed and there were no boats at hand. Accordingly the best swimmers in the fire company were selected to swim the river with a line of hose. They accomplished the feat and got across just in time to prevent the destruction of \$50,000 worth of property.—Philadelphia Ledger.

Came Back After Forty-one Years.

A Missouri man left his wife and went to Australia forty-one years ago, where it was reported he died. A few days ago, however, he unexpectedly returned home with a large fortune. There was a joyous meeting between husband and wife so long separated, but once more happily reunited. Strange to say, his wife had lived single all these many years with the dim hope of once more seeing her husband. They are both quite aged now, being upward of seventy years.—Exchange.

Children Cry for Pitcher's Castoria.

STOCKHOLDERS' MEETING.

THE TIME FOR THE REGULAR ANNUAL meeting of the stockholders of the Nevada Mill Co. having passed, notice is hereby given that at regular meeting of the Board of Trustees of said corporation, held this day, it was ordered that a stockholders' meeting be held on Tuesday, the fifteenth day of December, 1891, for the election of Trustees to serve for the ensuing year and for the transaction of such other business as may come before the meeting. W. S. BENDER, Secretary. Reno, Nev., Nov. 16, 1891.

"August Flower"

Dyspepsia.

There is a gentleman at Malden-on-the-Hudson, N. Y., named Captain A. G. Pareis, who has written us a letter in which it is evident that he has made up his mind concerning some things, and this is what he says:

"I have used your preparation called August Flower in my family for seven or eight years. It is constantly in my house, and we consider it the best remedy for Indigestion, and Constipation we have ever used or known. My wife is troubled with Dyspepsia, and at times suffers very much after eating. The August Flower, however, relieves the difficulty. My wife frequently says to me when I am going to town, 'We are out of August Flower, and I think you had better get another bottle.' I am also troubled with Indigestion, and whenever I am, I take one or two teaspoonfuls before eating, for a day or two, and all trouble is removed." @

FIFTY-CENT COLUMN.

</

EXTORTIONATE FREIGHT RATES.

The high rates of freight from New York to San Francisco, by rail or by water, caused several San Francisco merchants to ship cargoes of wares and merchandise of American manufacture from New York to European ports, where they were reshipped and forwarded by way of Cape Horn to San Francisco. As the articles, mostly hardware and farming implements, are protected by a high tariff, they were seized upon their arrival at San Francisco by order of the Treasury Department, notwithstanding they were American manufacture, because they had been shipped at a foreign port. The merchants had to give bonds for the release of the goods, and it is expected that a test case, which will be brought by them, will be tried shortly in the United States District Court.

The fact that San Francisco merchants can ship merchandise from New York to Europe, thence by way of Cape Horn to San Francisco, cheaper than by rail across the Continent, or by the Isthmus of Panama, or even by Cape Horn, direct from New York, gives rise to the belief that a trust has been formed by the railroad and steamship lines. Though Mr. Blaine says trusts are largely private affairs with which the Government should not interfere, San Francisco merchants are endeavoring to circumvent this railroad and steamship combination, so far as it is possible for them to do so, by shipping heavy and imperishable articles by way of Europe to San Francisco.

But the Government now interposes in behalf of the high rate combination and seizes goods of American manufacture for customs duties, because the owners of these goods are compelled to ship them to Europe to avoid the payment of extortionate freight rates.

Thinking people are asking what the country is coming to when such things are tolerated. Czar Reed's Billion Dollar Congress granted a subsidy to the Pacific Mail Steamship Company, which is supposed to maintain an independent transportation line between New York and San Francisco. It leaked out during the war between competing transcontinental railroads a few years ago that that this steamship line was subsidized by each and every railroad that crosses the Continent. It was also shown by the company at its annual meeting that its profits amount to about \$600,000 per annum, yet it was subsidized by Congress, and it shows its appreciation of the favor by combining with railroads to keep up freight rates to such an extortionate figure, that merchants save money by shipping hardware and other articles from New York to San Francisco by way of Europe.

What benefit can the people expect from another transcontinental line, if railroad and steamship lines are permitted to form trusts to keep up rates? There are now four or five transcontinental railroads, yet freight rates are almost as high as when there was but one. As this is said to be the result of a combination to keep up rates, Congress could do the people a powerful sight of good, by the passage of an Act to prevent the formation of trusts by subsidized railroads and steamship companies.

THE TRAFFIC ASSOCIATION.

The San Francisco Traffic Association, organized by the merchants of that city for the purpose of securing lower rates of freight across the Continent, gives promise of accomplishing some good for California and possibly for Nevada. The San Francisco merchants find that they are losing much of the trade of the interior by reason of the high prices which they charge for commodities, and that to recover lost ground they must not only reduce transportation rates, but profits. Their policy has been to uphold the transportation companies in their discrimination against interior merchants, and to encourage them in charging more for a short haul than for a long haul, so that interior merchants are forced to purchase in San Francisco many articles that are shipped by their doors to that city. San Francisco did not want a wholesale house in Nevada and the railroad company gratified its wishes in this respect by charging more for merchandise from the East to Elko, Winnemucca and Reno, than the through rate to San Francisco, thus virtually compelling merchants from two to four hundred miles east of San Francisco and on the line of the railroad, to go to that city to purchase goods which passed their stores going there. Notwithstanding this illiberality, the generous people of Nevada wish the Traffic Association good luck and hopes it will succeed in breaking the combination which keeps freights up to extortionate rates.

Though Nevada has less than 50,000 inhabitants, according to the census, which, by the way, has been shown in many instances to be wholly unreliable, the business of the State is equal to that of any other community of 250,000 inhabitants. Nearly everything consumed in Nevada is imported from some other

State. Although it produces as good wheat and beef as is found elsewhere on the globe, much of its flour and all of its canned and dried meats, bacon, hams, etc., are imported. It sends grain out of the State to be manufactured into flour, and sends beef to Chicago to be salted and canned. Everything that the people wear and a great deal of what they eat and drink, is brought from the East or West. The coal used for fuel is brought from six hundred to a thousand miles. Every implement used in its mines and on its farms, its mining and milling machinery, lumber furniture, in short almost everything required by the inhabitants, is brought into the State by rail. Transportation rates are therefore of the first and greatest importance to its people, yet though one of the great transcontinental highways crosses the State, Nevadans are compelled to purchase almost everything they use or consume in San Francisco, though those articles are shipped through Nevada to San Francisco.

If San Francisco has just cause for complaint against exorbitant freight rates, what does the Traffic Association think of what Nevada has to endure in that line?

BY TELEGRAPH!

A St. Louis Blaze

St. Louis, November 17.—The most disastrous fire which has visited St. Louis in many years started in the furnace room of the large dry goods house of Penny & Gentile, on the southwest corner of Broadway and Franklin Avenue about 4:30 o'clock this morning.

The flames spread so rapidly that a general alarm was given, which brought out the entire department, but before the engines arrived Penny & Gentile, the Sonnell Millinery Company, the mammoth establishment of the Famous Shoe and Clothing Company, occupying an entire block, a four-story building on Broadway, between Franklin Avenue and Morgan street, were in flames, and within two hours all the walls had fallen, and nothing was left but ashes and bent and twisted iron girders.

The fire throws about fifteen hundred people out of employment, the majority of them being in the service of the Famous Shoe Company, one of the largest boot and shoe houses in the West. One life is probably lost, Night Watchman Jasper, employed by the Sonnell Millinery Company, not having been seen to-day. The losses are about as follows: Famous Shoe and Clothing Company, \$1,165,000; Penny & Gentile, \$240,000; Sonnell's, \$245,000. The minor losses will aggregate \$45,000. Insurance about two-thirds of losses.

The Third Party Fight.

INDIANAPOLIS, November 17.—The open meetings to-day were a disappointment to the Alliance leaders and particularly the third party men. The attendance has not been as large as expected, nor the enthusiasm so great. The fight for and against the third party movement was bitter. The sessions of the F. M. B. A. and the Alliance this afternoon were secret, but it is understood the issue was squarely joined in each, and the result in each case was a drawn battle. At the open meetings to-night the attendance was less than a thousand. President Polk delivered his annual address.

Mr. Polk said from 1850 to 1860, farm value was increased 100 per cent. From 1870 to 1880 it was only 9 per cent. The aggregate wealth of the country increased from 1870 to 1880 over forty-five per cent. Two thirds of the country's wealth is not assessed for taxation, yet the farmer, possessing only 22 per cent of it, pays 80 per cent of the taxes. With modern facilities of transportation and improved machinery, the farmer finds himself compelled to sell produce at prices barely covering cost. Farm mortgages are frightfully large and everywhere the farmer is overburdened with debt.

Under Protection of the American Legation.

SAN FRANCISCO, November 17.—A letter from Valparaiso dated October 7, says thirteen persons are under the protection of the American Legation. They are A. Costas, Juan E. Mackenna, Guillermo Mackenna, General Gans, I. M. V. Carrere, Adolfo Ibarres, Ricardo Vicuna, V. E. Valero, and five others of minor importance. The Herald's dispatch of October 5, says certain questions have arisen between the Minister of Foreign Relations, and Mr. Egan, regarding the protection given to accomplices of the Dictator. Mr. Egan pretends it is his duty to give safety and safe conduct to those under his roof. Conducting them to the sea board with freedom of leave from the country, which prevents the Chilean Government from trying these criminals by civil laws and prevents the Government assuming its own territory, and making it subservient to the caprice of one man.

Fire in New York.

New York, November 17.—A fire broke out at 2 o'clock this morning in a row of wooden tenement houses. The prompt work of the police and fire departments undoubtedly saved many lives, as the flames spread rapidly. A number of people were rescued from their beds when almost suffocated with smoke, but they will probably recover. Wild rumors were circulated of whole families being lost in the fire, but they proved groundless. The loss on the buildings is estimated at \$30,000. Fully insured.

Palo Alto the Champion.

STOCKTON, November 17.—Palo Alto the famous campaigner stallion of Stanford's stable was placed by Marvin to-day as champion of the world of stallions, going a strong and game mile in 2:08 1/2. The horse went a mile yesterday in 2:10 1/2, which made him right for to-day's performance. Heretofore Marvin has tried to hold him down to the half to save him for the finish but to-day he let him go away at his speed, holding him on his feet. He went along his usual course, in the middle of the track, with a runner close up, and made the quarter in 31 1/2 seconds and half-mile in 1:03 1/2, a terrific gallop. Marvin held him back on the next quarter to keep him strong for the finish, making the quarter in 39 seconds, reaching the three-quarter post in 1:36 1/2, a second faster than he made the distance yesterday. On he went, making a wonderful finish, coming the last quarter in 32 1/2 seconds without a skip, going under the wire brave and strong, the winner of the world's stallion record in 2:08 1/2. Palo Alto goes home in the morning to retire to the stud, having won the mark Marvin had set for him.

Big Foot's Band.

WASHINGTON, November 17.—A telegram has been received at army headquarters from General Brooke, commanding the Department of Dakota, in response to one sent by General Schofield asking the truth about the rumor that Big Foot's band had left the reservation and started for Pine Ridge. General Brooke stated he had been unable to learn anything definite about the movement but would find out the scope and significance at once. No apprehensions are felt here that the movement may be followed by anything like last Winter's outbreak. General Schofield said this morning that the state of things in the Indian country to-day are far better than a year ago, mainly due to the fact that the Indian affairs of the Government are being better administered. He does not think there is any discernible signs of trouble this Winter.

Second Trial of Sullivan.

SAN RAFAEL, Cal., November 17.—This morning a venire of thirty-five jurors was drawn to try the case of S. W. Sullivan, charged with sending weapons into the State Prison at San Quentin with intent to aid the prisoners to escape. This will be the second trial for Sullivan. In the first trial the jury disagreed.

Fruit Growers' Convention.

MARSHVILLE, Cal., November 17.—The Fruit Growers' Convention assembled here this morning. Hon. L. W. Buck acting as President in the place of Ellwood Cooper, who is ill. About two hundred were present at the opening meeting. Governor Markham delivered a brief address.

Guilty, as Charged

MENESTO, Cal., November 17.—The Presbytery to-day rendered a verdict in the case of Rev. H. C. Gillingham, charged with unministerial conduct. The Presbytery unanimously sustained the charges of indecent and vulgar language and lying.

IS MACKAY A CANDIDATE?

It Is Said That He Will Be a Senator.

The rumor which has been circulated from time to time that John W. Mackay would be a candidate for the United States to succeed William M. Stewart, whose term of office expires in 1893, is again revived. Mr. Mackay is said not to be ambitious for congressional honors, but is of a retiring nature instead.

In fact, he at all times avoids publicity as much as possible, and prefers a quiet bottle with a congenial friend to the honors of popular applause, but, as is well known, Mr. Mackay has a wife. The latter is a most estimable lady, but ambitious. At her home in England she gathers about her the most distinguished men and women of the day, and even royalty has deigned to attend her receptions. Her entertainments are said to be models of magnificent hospitality, and she aspires to be a leader of leaders in the society of the effete world. With this in view she married her daughter to Prince Colonna, through whose veins courses the bluest blood of Italy. But there is now another step to be made. To round out her career she would like to herald to the world that her husband was a Senator of the United States.

How far her influence will extend is not known, but it is claimed that her husband is now considering. There is no doubt of his popularity in Nevada, and should he make the fight he would be almost sure to win, but it is said he has promised Senator Stewart not to oppose him. This the Senator states most positively, but Mackay's friends are incredulous. They think Mackay will be in at the finish, and stands to win.

Mr. Mackay refuses to discuss the matter. He is not a communicative man, and it is hard to draw any inference from his silence.—San Francisco Post.

We wish to inform the public that we keep the lowest priced house in town, where all kinds of refreshments, meals, lunches, fine liquors, native and foreign wines, draught beer 5 cent cigars and well ventilated lodgings with good beds can be obtained. Our continued good business is in itself a recommendation, and we wish to increase it. Let all those come who never came before, and those who have, now come the more. Stroh & Block, Commercial Row.

PEOPLE WHO ENTERTAIN.

Clever Performers With Goodyear, Eitich & Schilling's Minstrels.

Charles W. Goodyear is one of the best known minstrel performers on the American stage, having appeared in every city in the United States and Canada with his own and all the best companies on the road. He has a dry, droll style of his own and is the fastest talker that blacks his face. His specialty this season is better than ever; his songs are all new and every witticism as bright as the dew that sparkles in the morning sunlight.

Charles E. Schilling has been connected with the best minstrel and pantomime companies for years. He is considered the greatest producer of original ideas in minstrelsy in this country. He is the originator of instrumental comedy, and has honestly earned the title of premier musical artist of the world.

The famous and most artistic living delineator of negro characters is E. M. Hall. He is called the entirely different comedian and has an entirely new repertoire this season.

Among the European artists with this organization are Mazou and Abecoo, the Arabs. These clever gymnasts have been secured for the present season at an enormous salary, and are by far the greatest equilibristas that have ever been seen in this country; they are really marvelous. Sr. Garcia is also a valuable acquisition. His performance on the Greek instrument called the salterio is wonderful and stamps him as one of the greatest living instrumentalists. There are also sweet singers, accomplished musicians and funny comedians. The stage settings and paraphernalia are the most gorgeous that have ever been introduced in an organization of this kind, and costs alone upwards of \$8,000. This matchless combination will appear at McKisick's Opera House this evening.

Goodyear, Eitich & Schilling have a great acquisition to their company in Mazou & Abecoo, the Arabs. These artists are, without an exception, the most wonderful acrobats that have ever visited this country. Their salary is three hundred dollars per week. They will be here with the above company.

NEVADA CLIMATE.

What Is Said of the Truckee River.

A correspondent of the Philadelphia Press, who has been on a visit to this coast says: "The State of Nevada can boast of a climate surpassing in health-giving qualities all that has been written of sections more blessed by the hand of progress. The town of Reno lies on a beautiful stream, the Truckee River, which rises among the forbidding looking and snow-capped peaks of the famed Sierra Nevada Mountains. Flowing over a tumultuous and rocky bed through mountain canons, it spreads out into a lovely valley, similar to Chester Valley, recall the historic old Brandywine, as it flows under the Baltimore Central Railroad Bridge at Chadd's Ford, winds across the flat, and back to the hill, a favorite study for our artists, and you have the Truckee River at Reno."

Under the laws of the State of New York candidates for office are required to certify, under oath, the amount of their campaign expenses. The law fixes no limit for expenditures, candidates being at liberty to expend as much money as they please for speakers, torchlight processions, etc. Governor-elect Flower, in compliance with that law, has made affidavit that his campaign expenses amounted to just \$5,000. Republicans must have sold very cheap if that amount of money gave Flower 45,000 majority.

Those who contemplate renovating their houses should not forget the immense stock of wall paper at the store of the Reno Mill and Lumber Co., on Second street, next door to the Postoffice.

BREVITIES.

Miss Wasson of Carson arrived in Reno last night.

Miss Dollie Yerington came down from Carson last night.

General R. M. Clarke of Carson arrived in Reno last night.

Washington Lodge No. 25, A. O. U. W., will hold its regular meeting this evening.

A. Santa has purchased 100 head of beef cattle of E. P. Sessions of Fort Bidwell.

Ed. Ferris of Long Valley arrived in Reno yesterday and left for San Francisco last night.

Judge Richard Bising came down from Virginia last night and proceeded to San Francisco.

Patrick Reddy, the lawyer, came in from the South last night and continued to San Francisco.

The members of Truckee Lodge No. 14, I. O. O. F., will hold its regular meeting this evening.

Lumber is being hauled on the ground for fencing the Riverside Park in Powning's Addition.

Four car-loads of wheat arrived in Reno from Amadee yesterday afternoon consigned to the Riverside Mills.

The internal revenue receipts for the last fiscal year were \$148,035,416, an increase over the previous year of \$3,440,719.

Mrs. Field, the wife of Agent H. L. Field of the Southern Pacific Company, and her daughter arrived from the East Sunday.

Theodore Winters came up from his ranch yesterday to attend a meeting of the Executive Committee of the State Agricultural Society.

Eleven bars of bullion from the Holmes mine at Candelaria were shipped to San Francisco last night per Wells, Fargo & Co.'s express.

Senator M. D. Foley, who was confined to his house with an attack of neuralgia for two or three days, left for San Francisco night before last.

The Grand Jury, through its foreman, W. O. H. Martin, submitted its final report to the District Court yesterday afternoon and was discharged.

Palo Alto broke the world's stallion record on the Stockton kite track yesterday. He was driven by Marvin and made a mile without a skip in 2:08 1/2.

Remember the grand masque ball Thanksgiving night. Examine the beautiful prizes to be given away in the show windows of R. Herz's and H. Fredrick's jewelry stores.

A sack of quartz specimens has been left with some one, and the owner has forgotten where. He would be pleased to have word left at this office as to the whereabouts of the same.

The Census Department furnishes the following statement, giving the population of four Oregon towns: Albany City, 3,079; Baker City, 2,440; Corvallis City, 1,527; Pendleton town, 2,506.

N. H. A. Mason has returned from Humboldt where he has been laid up some days with a severe cold. He sold 592 steers to Captain Joe Marzen, of Lovelocks, at five cents per pound net.

Railroad men say business on the Central Pacific is heavy. Special trains are being run daily to take freight over the road. It is expected that the freight will continue brisk until after the holidays.

General C. C. Downing, Thomas Wren, Henry Rives, R. M. Beatty and George W. Cassidy have been appointed by Governor Colcord delegates from Nevada to the Denver Mining Congress, which meets to-day.

The Chicago Live Stock Report gives the following as the top prices, November 12th, and the relative prices one year ago: Bees \$5.30, one year ago \$5.20; hogs \$4.10; one year ago 4.15, sheep \$4.85, one year ago \$5.25.

Chicago last year shipped 392,786 barrels of pork, 471,910,128 lbs. of lard; 823,801,460 lbs. of canned meats, and 964,134,807 lbs. of pressed beef. During same year there were slaughtered 2,219, 312 cattle, and 5,733,082 hogs.

The White Pine News learns that the Hayward party, of San Francisco, has purchased the Nelson Con. M. & M. Co.'s interests at Cherry Creek and will commence work immediately to pump water out of the Star mine.

The stage between Sacramento and Plymouth, Amador county, California, was stopped by highwaymen and the driver relieved of \$24 40. He told the robbers that was all the money he had and they generously gave him back a dollar.

The Grand Jury met at 3 o'clock yesterday afternoon, found two true bills, one against William McWilliams for grand larceny, the other against H. Summerfield for burglary, and reported the same to the Court. At 4 o'clock the prisoners were arraigned, both pleaded guilty to the indictments and Judge Cheney sentenced McWilliams to 18 months in State Prison and Summerfield to 4 years and 6 months in the same institution. If any Court in the State can beat that record the Journal has not heard of it.

Another carload of poultry from Kansas went through yesterday to San Francisco. The chicken raisers of the Pacific Coast should ask the railroad company for protection from the cheap corn-fed fowls of Kansas, Missouri, Iowa and Nebraska by raising the rates of freight.

It is quite interesting to note how the coverings for furniture that are now used are almost identical in patterns and material with those in vogue in revolutionary days, and many of the old families in the East, find no difficulty in "matching" coverings that were bought fifty years ago.

An Indian committed suicide at Pioche and his widow, in superstitious terror, paid a store bill which her husband would not pay and which the store keeper never expected to get, and now everybody in Pioche who has a claim against an Indian that cannot be collected, hopes the noble red man will end his existence so that his squaw will pay his debts.

Mrs. D. H. Brown of Carson is in a critical condition. The Tribune says as a last resort the physicians decided to amputate her left leg, gangrene having set in from a clot of blood in one of the arteries. When the first operation was performed it was found necessary to make another amputation as the flesh was mortified. The lady is the widow of the late Senator Brown of Ormsby.

The Tribune says Goodyear, Elitch and Schilling's Minstrels deserve all the good things said of them. They attracted a large audience at Carson and gave entire satisfaction. Everything is new, crisp and bright and Goodyear is one of the best end men ever seen on a Carson stage. The specialties are all fresh and new, and the wonderful feats of the Arabs astonished and delighted all.

On last evening, just as the full moon was rising in the East, one of the most beautiful panoramic views of the bluff across the river was seen that could be imagined. The bluff was covered with a so shimmering light, and the outlines of Mr. Newland's residence stood out boldly, while the reflection on every window on the North and East side of the building was so brilliant that the house presented the appearance of a grand electric illumination.

TENNIS.

Dr. Phillips the Champion Nevada Player.

The Tribune says: "The long-looked-for meeting between Dr. Phillips of Reno and Clarence Barnes of Virginia City took place Saturday afternoon at the Carson Club court. Both Reno and Virginia sent a goodly number of enthusiasts, and with Carson's contribution, every available seat and position from which to witness the contest was occupied. It will be remembered that Dr. Phillips was unable to play at the State Tournament on account of a sprained ankle, and Mr. Barnes, the present State champion, agreed to meet him here as soon as Phillips had recovered from his injury. No time was lost in getting to work. Both players were cool and careful, placing with phenomenal accuracy. Barnes took the lead in the first set, but did not maintain it long. Phillips has a wonderful way of winning out a game, when apparently everything is against him. Long volleys and brilliant playing marked the progress of the entire game, and kept the interest of the spectators up to the highest pitch from beginning to end.

Phillips finally won the first set by a score of 7-5.

Barnes took the second by a score of 6-2.

Phillips won the third in 6-1.

Barnes won the fourth in 6-4.

The fifth and deciding set was won by Phillips in 6-4, after a long, hard struggle, in which was displayed the best tennis ever seen in this State."

The World Enriched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs is first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system; gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.

Buckwheat Cakes.

The old way of setting to raise over night by the use of yeast, while the cakes were light yet there was always a well founded suspicion that buckwheat cakes made in that manner were indigestible and unwholesome, because of the chemical action that takes place, so alters the flour from its original character, that the souring or decomposing process continues in the stomach, followed by dyspepsia and kindred troubles.

The new way does away with all fermentation, souring etc., and places upon the table smoking hot buckwheat cakes in 12 minutes or less. Dr. Price's Cream Baking Powder is the element that superseded the old methods. Buckwheat and all griddle cakes made with Dr. Price's Powder are not only exceedingly light and delicious, but can be enjoyed by dyspeptics and invalids with impunity. Dr. Price's Cream is the only baking powder containing the whites of eggs.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

THE WOMAN'S GUILD.

Programme of the Entertainment to Take Place Wednesday Evening.

The following tableaux will be presented: Father Time's Reception, the days of the week, months of the year, New Year's Day, Valentine's Day, Washington's Birthday, April Fool's Day, Rainy Day, Arbor Day, May Day, Decoration Day, Wedding Day, Independence Day, Thanksgiving Day, Christmas Day, Labor Day, Lent and Easter.

The tableaux will be serio-comic, many of them being of a humorous character.

There will be an entire change of programme Thursday evening. After the minstrel performance Wednesday evening all who desire will be furnished with supper at the Pavilion for 25 cents each.

The Palace Hotel, which is well and favorably known to every old Nevada, is being conducted as usual by that veteran landlord, Al White, who spares neither pains nor purse to provide for the comfort and convenience of guests.

Free Water.

Parties in Reno having good wells or a place for one are throwing away money in paying water rates, when by a small investment plenty of pure water is at their command free of cost. One good well will supply water for several families, who by joining in the expense of erecting a wind-mill, tank, etc., can not only effect a saving in expenses, but be independent of a monopolizing water service. A visit to the Water Company's reservoir and ditch at times will convince the most skeptical that well water is the doctor's enemy, while surface water is the direct agent in bringing business to his office.

Constant pumping insures pure water from all good wells, hence the quality of well water cannot be judged properly from only occasional pumpings. Many unused wells would furnish plenty of pure, clear water if properly pumped.

Can you afford a pumping plant of your own? We will answer for you, Yes.

We are prepared to take contracts this Winter to erect any sized wind-mill plant required, with proper tank and service connection, furnishing them on a monthly installment plan, warranting all work and taking proper care of all mills so erected.

Plans and specifications free upon application. Anti-freezing pumps and protected pipes insure equally as good Winter service as in Summer. For further particulars call on

RENO MFG. CO.

Electro-Plating.

H. A. Waldo is constructing, in connection with his local telegraph battery, an electro-plating apparatus, and will soon be ready to do all kinds of gold, silver, nickel and composition plating. He is now prepared to plate or replate spoons, knives and forks, etc., and make them as good and nice as new. The plating is no wash, but is a heavy coating of melted metal applied to the article, which is durable and will not scale off. Those having table knives, forks and spoons which they wish replated will do well to give him a trial.

For Over Fifty Years

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth, send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for children teething.
